

# Newham Third Sector FUNDING

A partnership between Newham Voluntary Sector Consortium, the Aston-Mansfield Community Involvement Unit and the Black & Ethnic Minority Community Care Forum

A new service for voluntary  
community and faith groups  
in Newham

## find accurate fundraising information using **GRANTfinder** making information work

Raising funds for your group is all about knowledge. Successful fundraising means knowing what funds are available, knowing well in advance what deadlines you have to work to and knowing whether your activities will fit a funder's criteria

**Newham Third Sector Funding** is a partnership between Newham Voluntary Sector Consortium, the Aston-Mansfield Community Involvement Unit and the Black & Ethnic Minority Community Care Forum. As part of the work we each undertake to strengthen and develop local organisations, we are now able to offer local voluntary, community and faith groups access to *GRANTfinder*, the largest and most comprehensive online funding database in the UK. *GRANTfinder* includes constantly updated information on over 4000 funding programmes, including resources from local, regional and national government, European funding, private initiatives, charitable trusts and corporate sponsorship.

For more information on how *GRANTfinder* could help you successfully fundraise, contact the Newham Third Sector Funding partner you are currently working with or that is closest to you:
